Big Brands is getting BIGGER!

The Original Problem We Solved: Stores were losing money on messy travel-size displays. Customers couldn't find what they wanted. Nobody was happy. We created a fix by developing our specialized Gravity Packs that act as retail-ready displays that customers can easily shop.

The Follow-Up Problem: Many of our customers were forced to work with multiple distributors to meet their product needs, often purchasing trial and travel sizes from one source and full-size products from another. This resulted in unnecessary complexity in the buying process.

It quickly became clear that customers wanted the ability to scale seamlessly **from trial to full-size products** without fragmenting their supply chain.

To address this, we expanded our catalog to include **300+ top-selling SKUs** of large-format items from our vendor partners, allowing customers to consolidate purchasing, simplify procurement, and get everything they need in one place.

What this means for Canadian Tire...

1

MORE SALES

- Products that catch eyes
- Increased variety
- Brands customers trust

2

LESS HEADACHE

- Easy ordering
- Quick restocking
- Simple management

3

BETTER RESULTS

- Every inch makes money
- Customers buy more
- Your store looks better

The Big Promise: You'll make more money from your personal care products.

KYLE S.

Canadian Tire #210 - Ottawa

We were trying to provide great add-on items for our customers. Great variety, and the service was second to none. Everything was so seamless. People now can find travel safe products every day, and this is great being so close to the airport. Placing an order requires little time and/or effort. If you're on the fence, start with a smaller selection. Highly recommend.

Melinda

Canadian Tire #97

The program is great for pick-up items for my cash lane, and great for camping. I was able to fill a 4 foot section and it's been great having the rep reply to my questions. Great products/program for the price.

BRYAN M.

Canadian Tire # 691

I needed more assortment for the camping/travel section in my store. As soon as I found out about it I purchased it right away and now have been doing very well with it. The merchandising options, like the tower and displayer, are fantastic, and the assortment is spot on. Since implementing it, my sales have increased with minimal investment and no real shrink concerns. I wouldn't hesitate to tell someone to try it! I have had no issues whatsoever with the program and I think anyone who gives it a try in any market will be pleasantly surprised with the results.
